Subject: Re: APS Rebates

I would like to ask that the rebate reduction for new solar energy users not be back-dated but instead set for April first, after the date they made their public announcement of reducing solar rebates.

I had submitted and obligated myself to purchasing solar panels, the request went in on March 31st to APS from the company installing my solar panels. Then I find that APS is changing the game after I am committed is just not fair. They should not be allowed to reduce the rebates effective retroactive to when I put in my good faith request.

I appreciate your time and attention to this matter.

Respectfully,
David Guenther
